

# Limited Warranty

PRO IMAGE GUTTERS LTD. hereby warrants against eavestrough containing manufacturing defects causing peeling, blistering or flaking. The period of the warranty on material is 40 years beginning on the date application of eavestrough to your property was completed.

*Alu-Rex* products (M5200, M5300, and M5800) are subject to the terms of the *Alu-Rex Limited Warranty*. PRO IMAGE GUTTERS LTD. hereby extends their five year warranty to seven years, if the *Alu-Rex* products T-Rex M-5200 and/or T-Rex XL M-5800 are installed in conjunction with the eavestrough. The seven year *Alu-Rex* extension warranty does not apply to replacement cost claims *after* the first five years.\*

If, under proper notification and inspection, PRO IMAGE GUTTERS LTD. determines that your eavestrough contains manufacturing defects falling within the terms of this warranty, PRO IMAGE GUTTERS LTD. at its sole option will repair or replace the defective material on approval of the supplier. Suppliers may assume 100% of the repair and/or replacement costs for validated claims during the first FIVE years only for both the five and seven year warranties. Five year warranty claims received *after* the first five year period shall be invalid and PRO IMAGE GUTTERS LTD. will not be held liable or responsible for any associated costs and/or damages incurred. Seven year warranty claims received after the first five year period shall be subject to the percentage terms as laid out within the *Alu-Rex Limited Warranty*.\*

Discontinued colors, profiles and/or products no longer available will be replaced with a comparable product determined by PRO IMAGE GUTTERS LTD.

PRO IMAGE GUTTERS LTD. also warrants that improper installation (sloping/leaking corners) is under our personal five year limited warranty (or seven year extended as specified above\*) for cost and labor.

PRO IMAGE GUTTERS LTD. shall not be liable for damage due to any causes other than material or installation defects. Fire, lightning, windstorm, snow (ice/snow buildup, which can damage gutter structure), wind and/or wind propelled items or other acts of God, pollution or harmful chemicals, structural defects, damages caused by other individuals, misuse or failure to provide reasonable and necessary maintenance (regular cleaning twice annually by extraction method), are not covered within the terms of this warranty.

Warranty shall be null and void if for any reason full payment within PRO IMAGE GUTTERS LTD. terms are not made. If, at a later date, payment is restituted, the five or seven year warranty will continue from original date of installation only.

Alternate repair and/or work to PRO IMAGE GUTTERS LTD. product without written consent from PRO IMAGE GUTTERS LTD. will hereby void the terms of your five or seven year warranty.

\* Please see *Alu-Rex Limited Warranty* for specific details pertaining to replacement costs after five years, but less than seven years.

Sincerely,
